

DITA and xml:tm

Andrzej Zydrón: azydron@xml-intl.com

DITA TC 20-December-2005

Perfect Fit

- DITA donated by IBM to OASIS
 - topic/task/concept level reuse through XML document object
- xml:tm donated by XML INTL to LISA
 - sentence level reuse through XML Namespace
- Both complement each other perfectly
- Takes the DITA reuse principle down to sentence level
- xml:tm requires a DITA environment

xml:tm

- XML based text memory
- Radically new approach to XML document localization
- First significant advance in translation memory technology
- Uses XML namespace to transparently embed contextual information

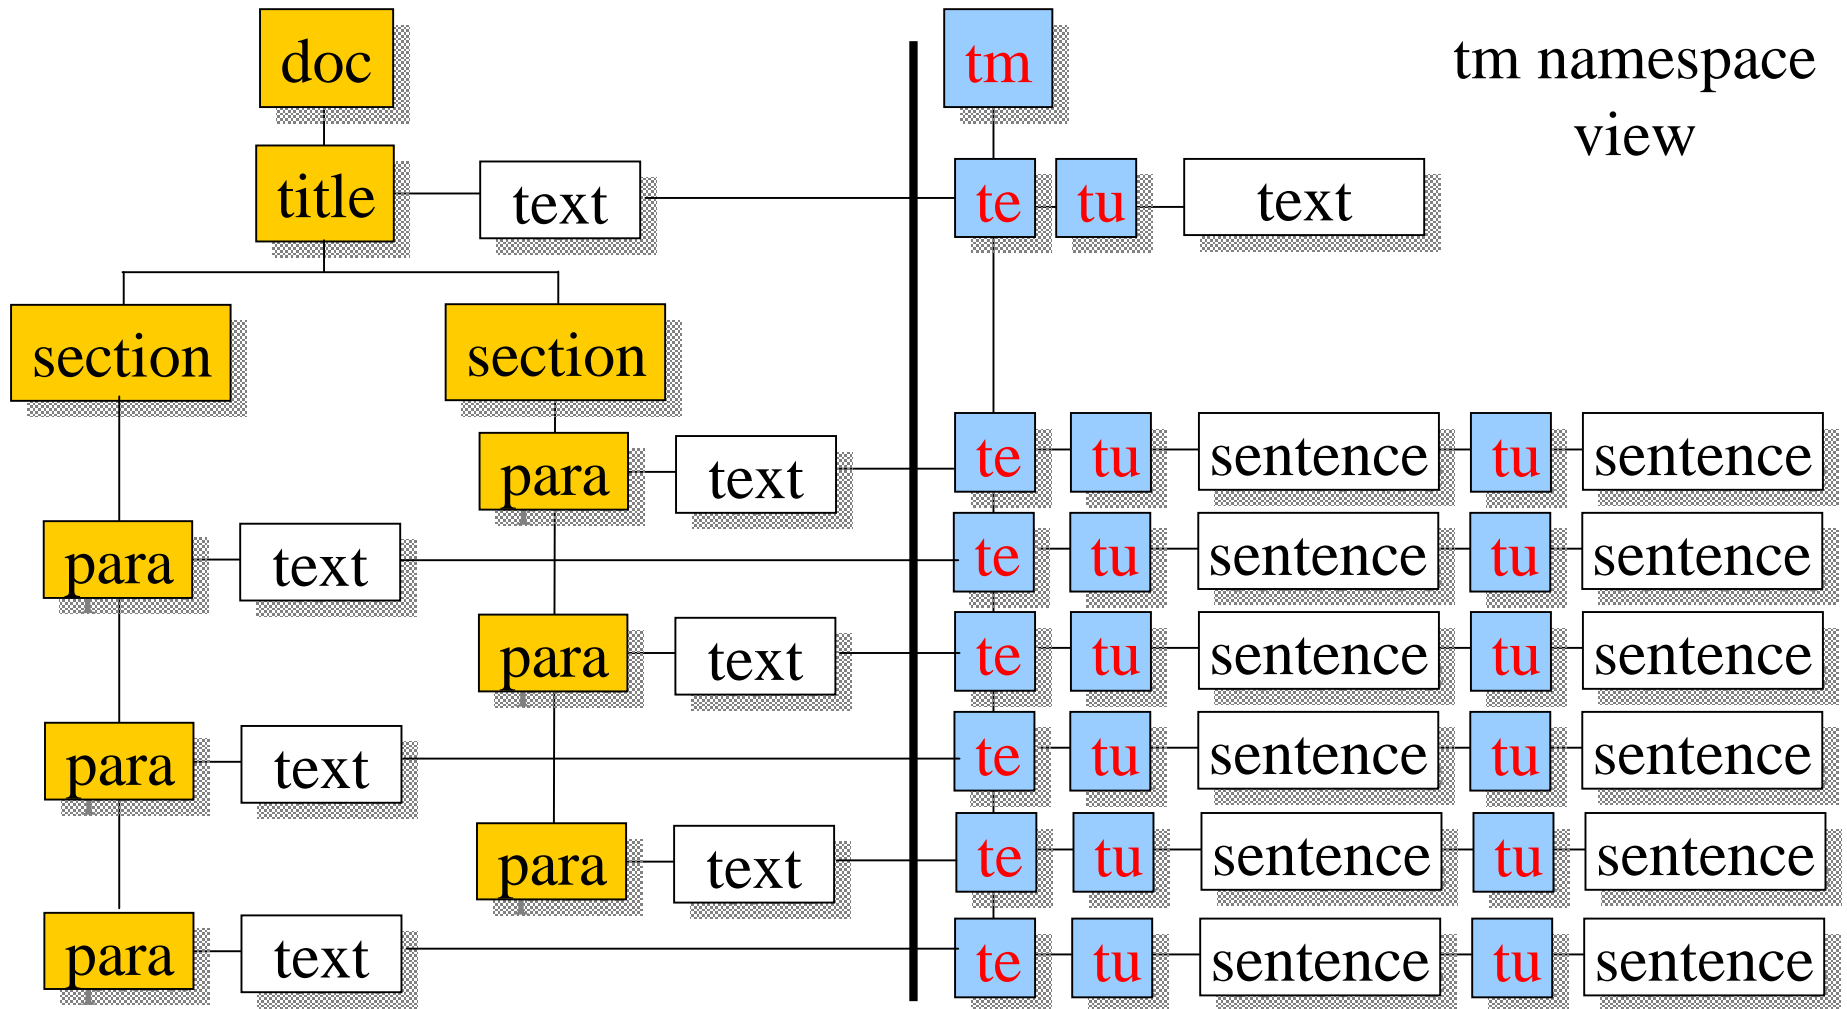

xml:tm namespace

- Text Memory namespace
- Can be mapped onto any XML document
- Vertical view of document in terms of 'text segments'
- Can be totally transparent

xml:tm namespace

```
<taskbody xmlns:tm="urn:xml-Intl-tm" >
  <tm:tm>
    <context>
      <p>
        <tm:te>
          <tm:tu>
            Namespace is very flexible.
          </tm:tu>
          <tm:tu>
            It is very easy to use.
          </tm:tu>
        </tm:te>
      </p>
```

xml:tm namespace

xml:tm namespace

original document view

text

```
<para>
```

```
Namespace is very simple. It is easy to use.
```

```
</para>
```

tm namespace view

```
<para>
```

```
<tm:te id="e1">
```

```
<tm:tu id="u1.1"> Namespace is very simple.
```

```
</tm:tu>
```

```
<tm:tu id="u1.2"> It is easy to use.
```

```
</tm:tu>
```

```
</tm:te>
```

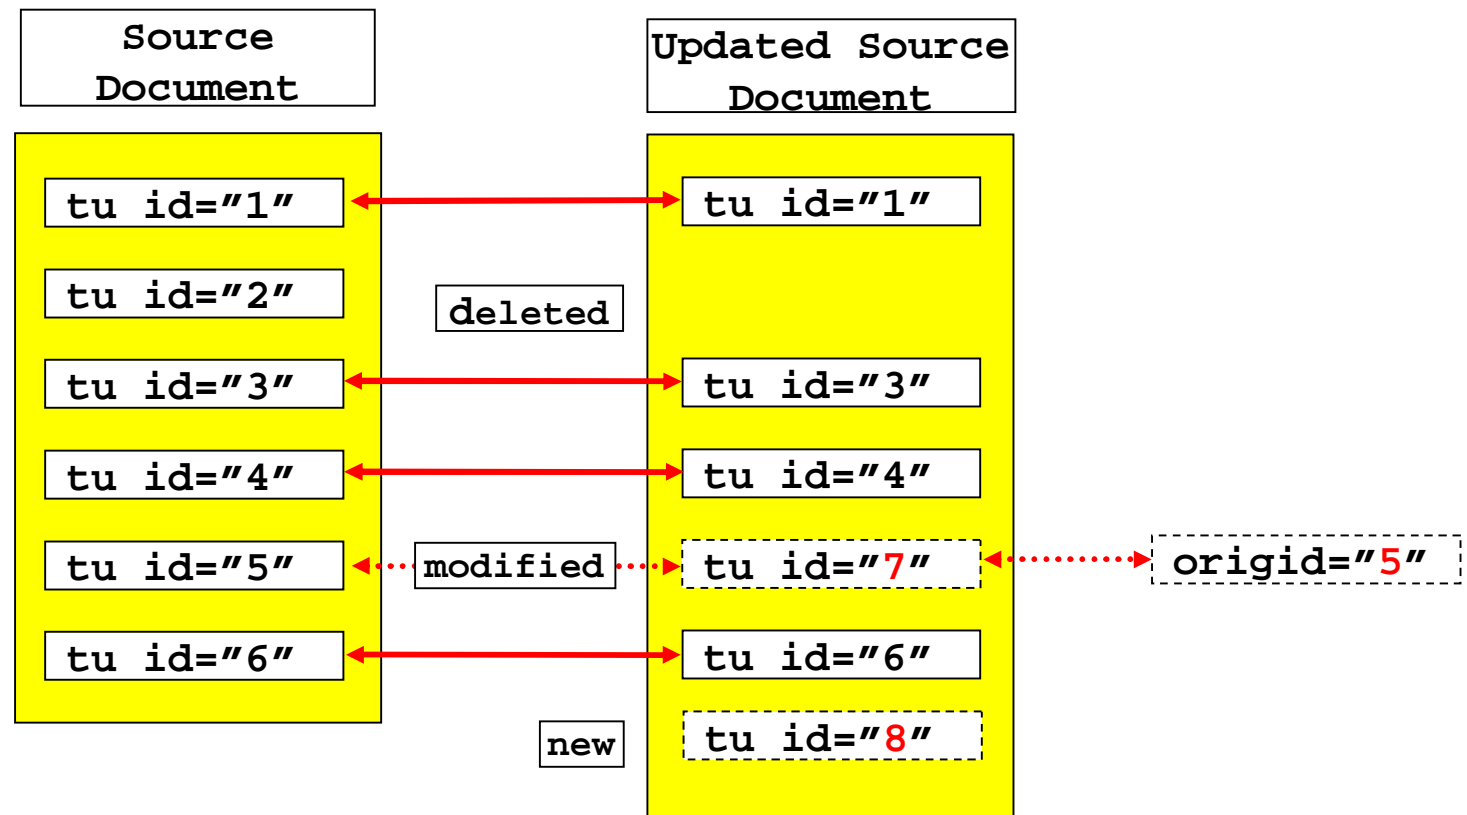

```
</para>
```

xml:tm Text Memory

- Author memory
 - Maintain memory of source text
 - Authoring statistics
 - Authoring tool input
- Translation memory
 - Automatic alignment
 - Maintain perfect link of source and target text
 - Reduce translation costs

xml:tm DOM differencing

xml:tm Author Memory

- Namespace aware DOM differencing
- Identify changes from the previous version
- Unique text unit identifiers are maintained
- Modification history
- Text units can be loaded into a database
- Authoring environment integration

Search the Author Memory

Changing the oil in your car. »

Once every 6000 kilometers or three months, change the oil in your car. »

To change the oil: »

Remove the old oil filter. »

Drain the old oil. »

Install a new oil filter and gasket. »

Add new oil to the engine. »

Oil » copy this line

Motor oil keeps your car's engine running smoothly. »

Oil should be changed every 6000 kilometers. »

< >

Alarm

[Prolog]

[Body]

The car is equipped with a fully installed Clifford alarm system that meets category 1 Thatchem requirements. The alarm can be operated with the Spyker design key-fob. With this key fob the owner can arm/disarm the alarm and open the doors and trunk.

Figure:
 Key = Arm/disarm
 L = Open LH door
 R = Open RH door

Concept	Title
---------	-------

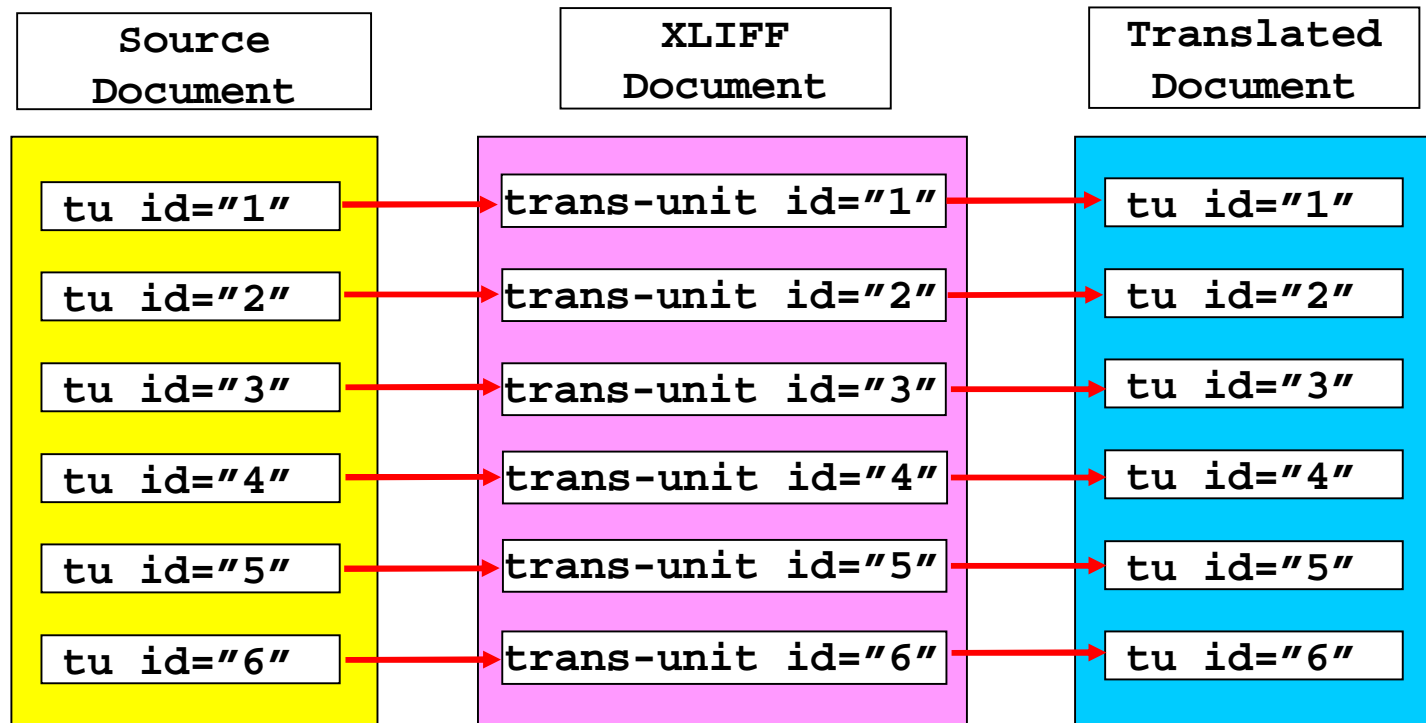

http://localhost:8080/am/amsearch.jsp# Local intranet

xml:tm Translation Memory

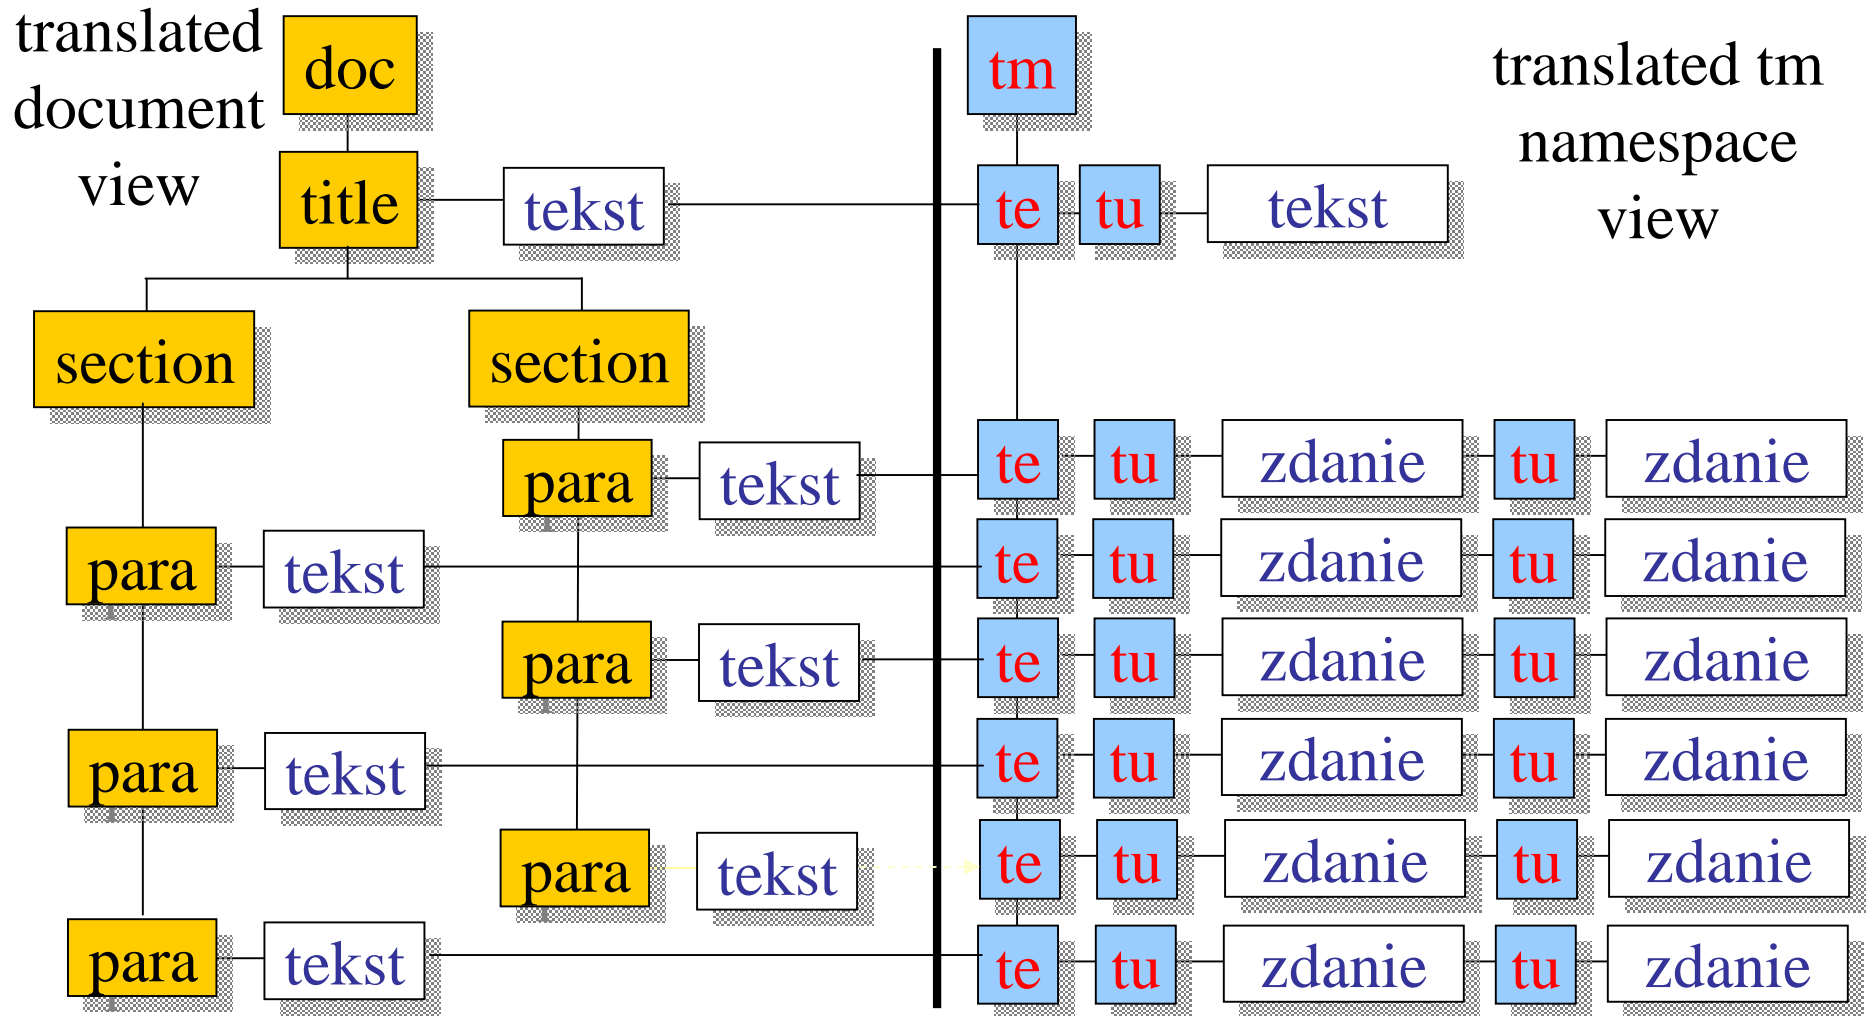

- The tm namespace can be used to create XLIFF files
- Automatic alignment of source and target languages
- Allows for more focused translation matching
 - Exact matching
 - Leveraged matching from document - identical text
 - Leveraged matching from database
 - Modified text unit matching
 - Non translatable text unit identification

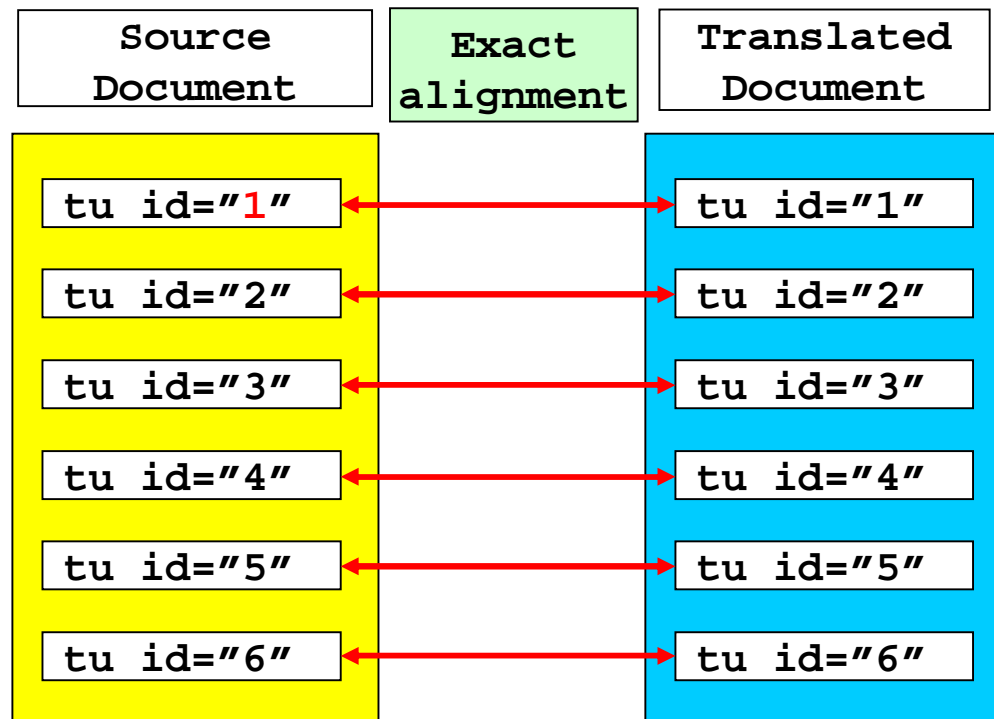

xml:tm translation via XLIFF

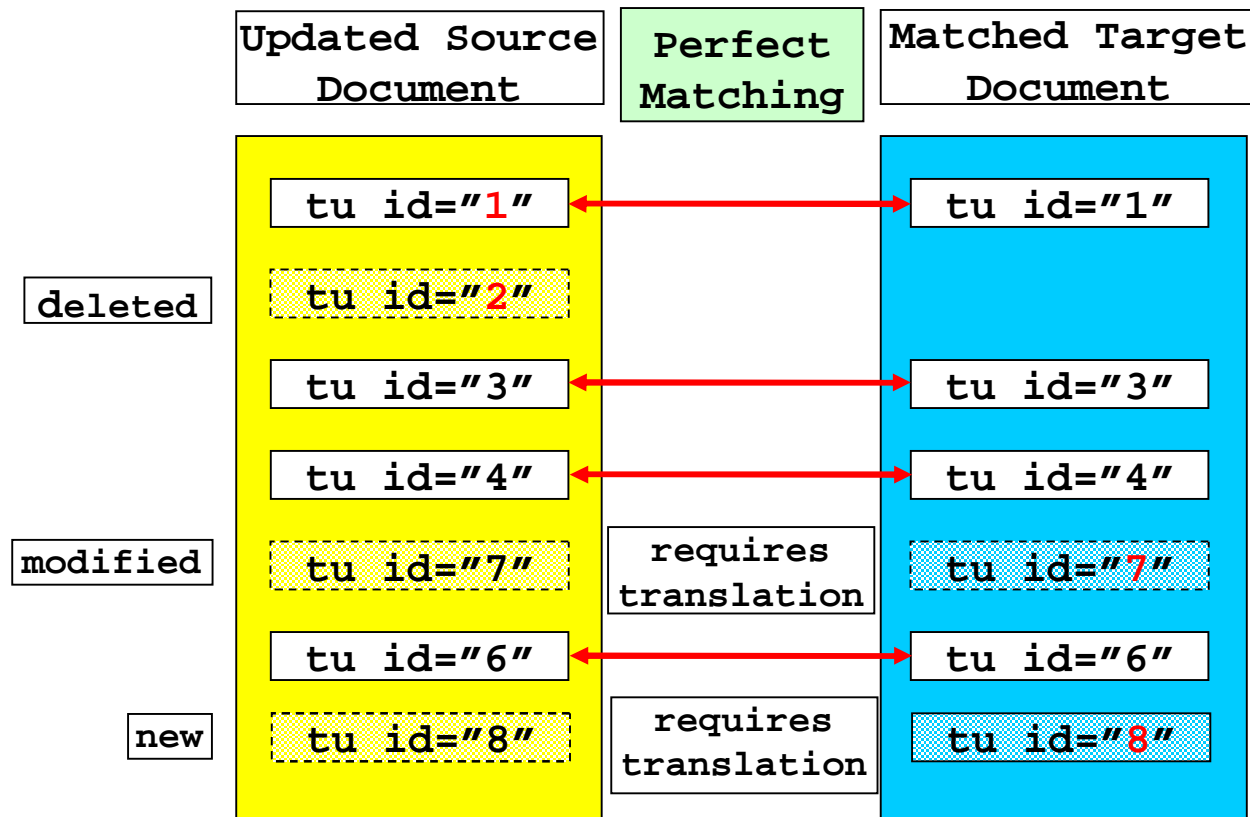

xml:tm translated document

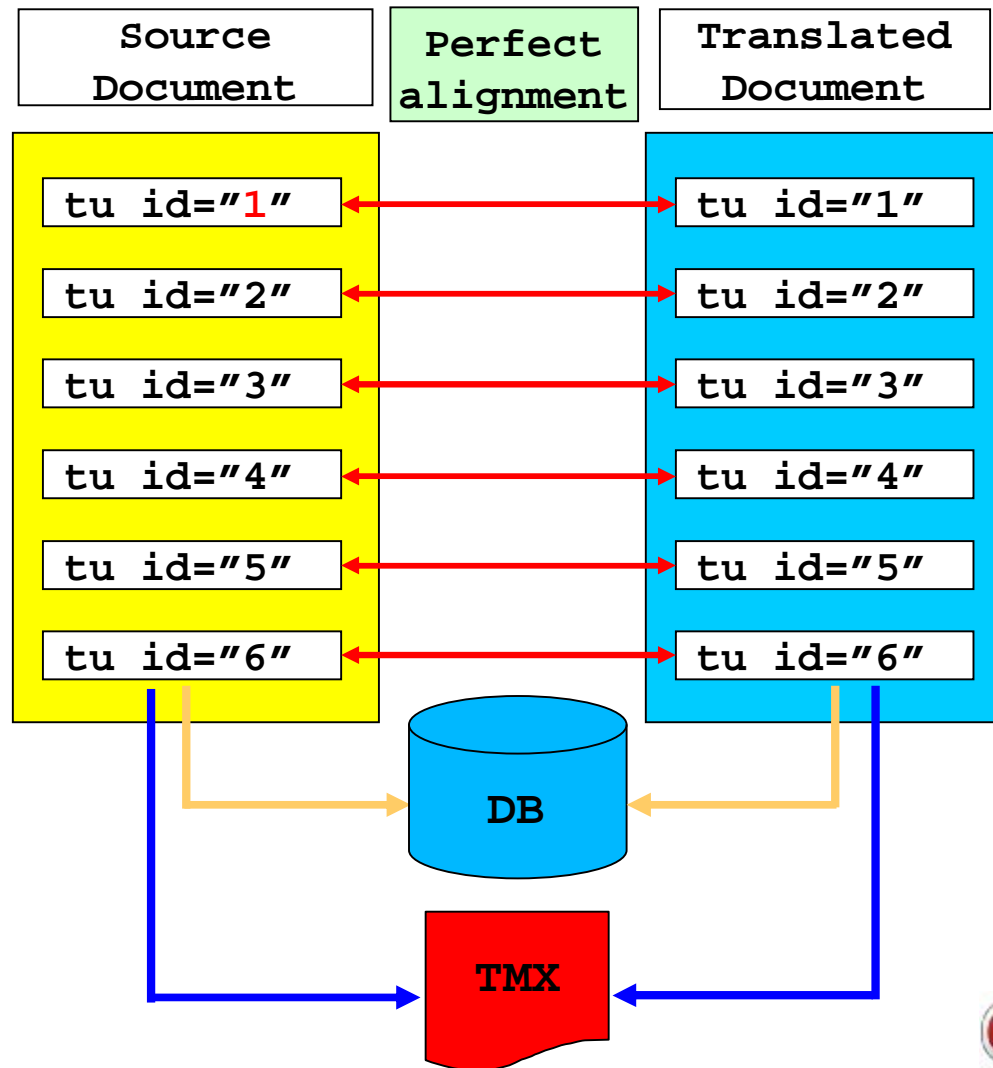

xml:tm perfect alignment

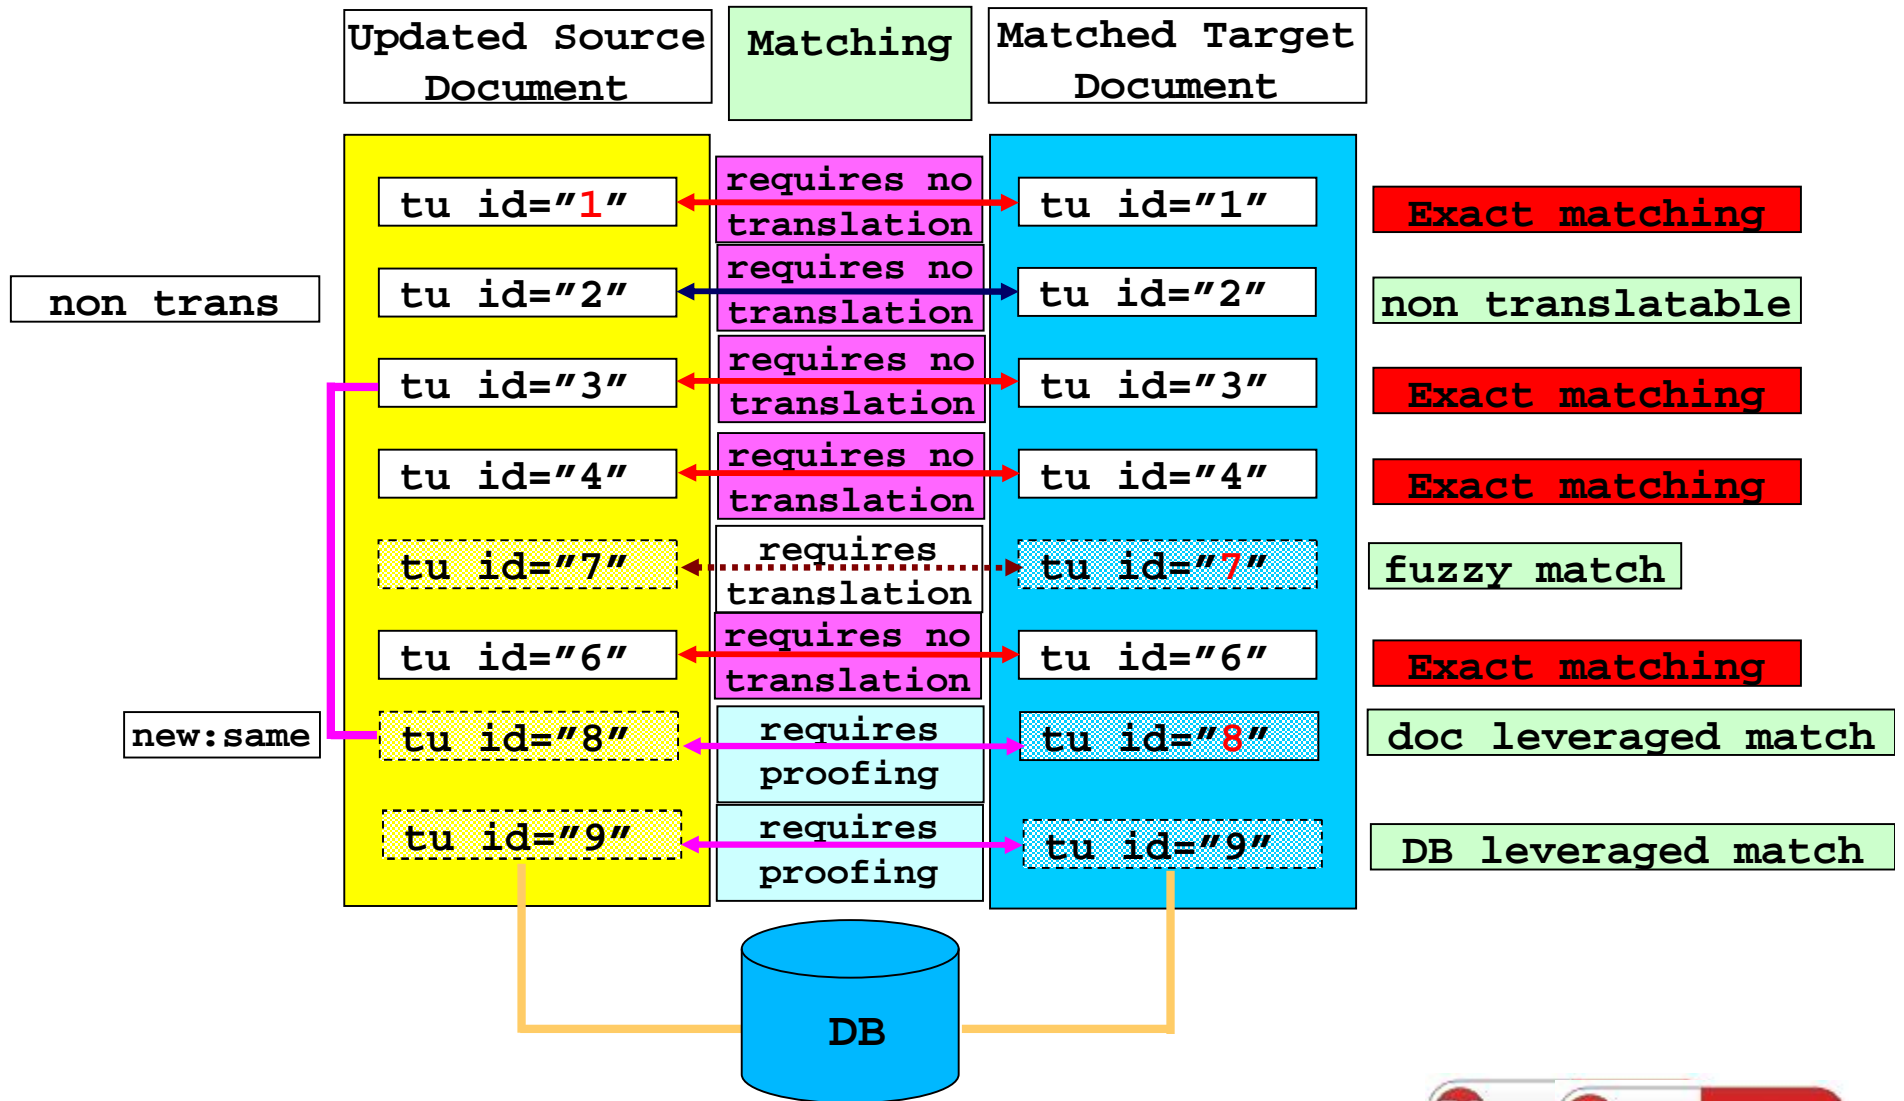

xml:tm perfect matching

xml:tm leveraged DB memory

xml:tm matching

xml:tm benefits

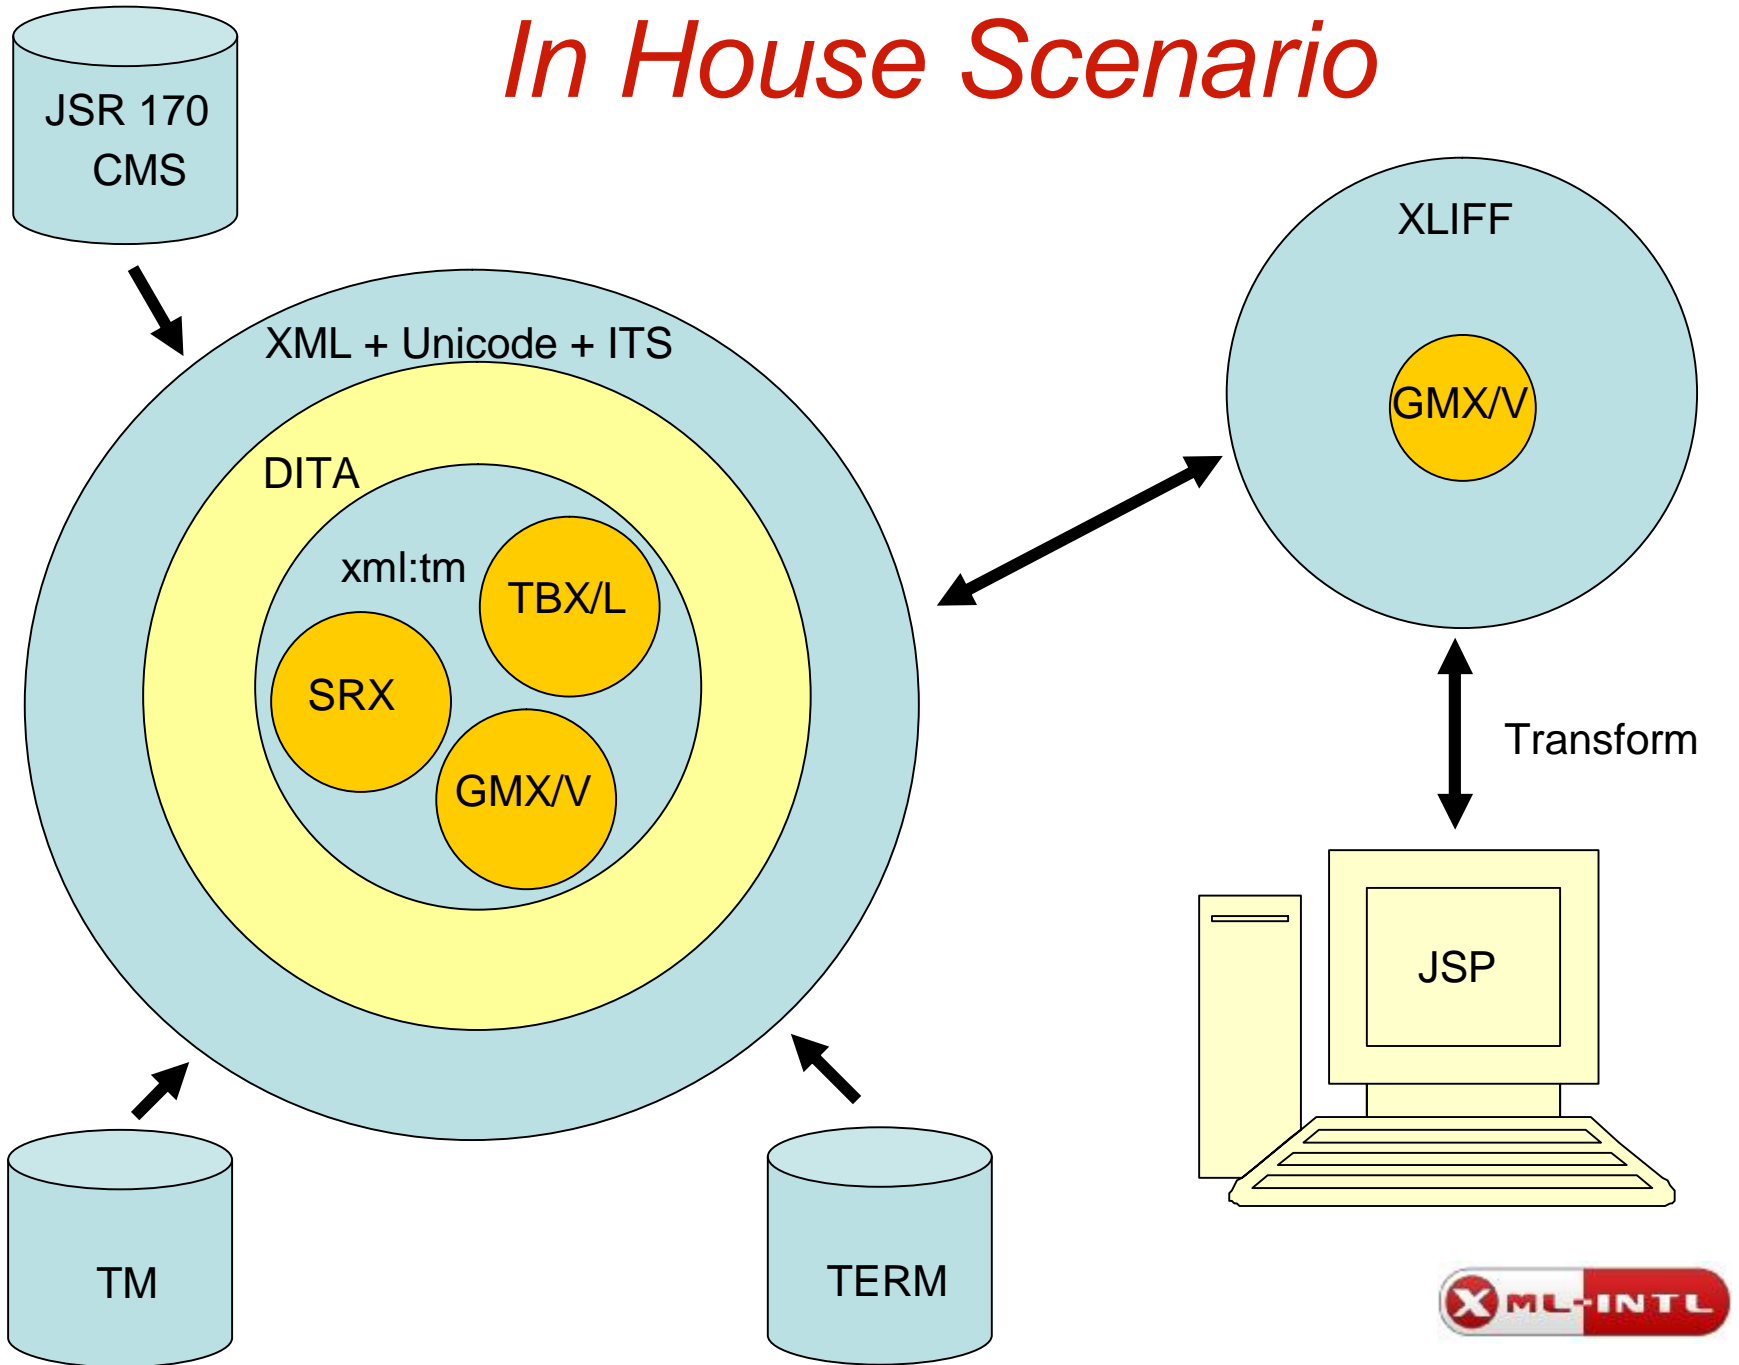

- Open Standard donated by XML INTL to LISA
- Complements DITA
- Designed to work with existing standards:
 - TMX, SRX, GMX and XLIFF
- Enterprise level scalability
- Totally integrated within the XML framework
- Source text is automatically extracted and matched
- Word counts are controlled by the customer
- Text can be presented for translation via the web
- Data is merged automatically at end of translation cycle
- All memory operations are totally automated
- Can be used transparently for relay translations
- More accurate – better matching

xml:tm

- Full specification:
 - <http://www.xml-intl.com/docs/specification/xml-tm.html>
- Maintained by xml-intl.com
 - <http://www.xml-intl.com/dtd/tm.dtd>
 - <http://www.xml-intl.com/dtd/tm.xsd>
- Detailed article on xml:tm :
 - <http://www.xml.com/pub/a/2004/01/07/xmltm.html>
- Donated by XML INTL to Lisa OSCAR

In House Scenario
