

**UNOFFICIAL COMPOSITE COPY AS AMENDED**

**NON-EXCLUSIVE LICENSE FOR STIX, TAXII, AND CyBOX (AGREEMENT)**

**DHS License No: DHS–NPPD-1-2015**

**Dated July 15, 2015, as amended November 4, 2022**

The Cybersecurity and Infrastructure Security Agency of the US Department of Homeland Security, as successor to the National Protection and Programs Directorate of the Department of Homeland Security, Science and Technology Directorate, located at 245 Murray Lane, Washington, D.C. 20528, (DHS) under the terms below and with the agreement of OASIS Open, the Organization for the Advancement of Structured Information Standards, located at 400 TradeCenter, Suite 5900, Woburn, Massachusetts 01801, (OASIS or LICENSEE or RECIPIENT), licenses to OASIS three suites of cybersecurity standards, STIX, TAXII, and CyBOX (the STANDARDS SUITES or ORIGINAL CONTRIBUTIONS).

**BACKGROUND.** The Department of Homeland Security has, over time, developed or has had developed three cybersecurity STANDARDS SUITES: (1) Structured Threat Information eXpression (STIX), a collaborative community-driven effort to define and develop a standardized language to represent structured cyber threat information; (2) Trusted Automated eXchange of Indicator Information (TAXII), the main transport mechanism for cyber threat information represented as STIX; and (3) Cyber Observable eXpression (CyBOX), a standardized schema for the specification, capture, characterization, and communication of events or stateful properties that are observable in the operational domain.

DHS owns the copyright and trademark to each of those STANDARDS SUITES and desires to make these STANDARDS SUITES available to the maximum extent possible to enhance cybersecurity for all users. OASIS provides a forum for the dissemination and further enhancements to those STANDARDS SUITES to accomplish that purpose. DHS does not currently own any invention and has not applied for any patent associated with the STANDARDS SUITES. Should any patent arise from DHS's contracting for any of those STANDARDS SUITES, DHS would have "a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on its behalf, the subject invention throughout the world."

**1. Terms of Software Usage Agreement.** For good and sufficient consideration, the parties agree as follows:

2. **Definition.** The OASIS membership agreements previously executed by DHS continue to provide certain separate licenses (on OASIS' standard terms for IPR contributions), which are not superseded by Sections 2(c), 5 or 7(b) of this LICENSE.

(b) This LICENSE does not, in any manner, constitute an endorsement by DHS of any test results, resulting designs, hardware, or any application resulting from LICENSEE's use of the STANDARDS SUITE, including accompanying documentation.

(c) With regard to any derivative work based upon the ORIGINAL CONTRIBUTIONS or their component parts, LICENSEE shall acknowledge that the United States owns the copyright and provided them under license to LICENSEE.
